Fund Performance

The performance figures represent past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available via this Web site. Please note that month-end performance data is accompanied or preceded by performance data current to the most recent quarter-end, also available via this Web site.

 All registered investment funds are available by prospectus only. A prospectus may be obtained by clicking on the prospectus tab above or you can contact your retirement plan provider, Diversified Investment Advisors (Diversified) at 800-755-5801. The prospectus contains additional information about the funds, including the investment objectives, risks, charges, and other expenses. You should read the prospectus and consider all such information carefully before you make your investment choices.

Performance reflects historical investment results (including changes in share price and reinvestment of dividends and capital gains) less charges and deductions. The total rates of return shown refers to the value an investor would receive on the date indicated if a \$1,000 purchase payment was made the indicated period of time. Returns are annualized when performance of one year or greater is shown. The sponsoring retirement plan may also assess an administrative fee, which would reduce the performance data quoted.

An investment in a money market fund, if available, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although money market funds seek to preserve the value of your investment, it is possible to lose money by investing in a money market fund.

The total rates of return for registered funds are calculated in accordance with SEC performance advertising regulations.
